

Toshit Pandey

toshitpandey01@gmail.com | [LinkedIn](#) | [GitHub](#)

MCA graduate (pursuing) with hands-on experience in applied machine learning and data science, focusing on data preprocessing, EDA, and supervised modeling. I aspire to excel in the professional industry by building scalable, production-ready ML solutions, backed by strong fundamentals in DBMS and operating systems.

EDUCATION

MCA (2024-2026, **CGPA: 7.58**), Birla Institute of Applied Sciences, Uttarakhand, India

B.Sc. (2021-2024, **Marks: 68.92%**), Soban Singh Jeena University, Uttarakhand, India

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL
- **Web Technologies:** HTML, CSS
- **Technologies and Fundamentals:** Data Science, Machine Learning (ML), DBMS, Operating Systems
- **Version Control Tools:** Git, GitHub

PROJECTS

[1.] StressGuard | Python [GitHub Repository](#)

- **Developed an end-to-end Streamlit web application** for real-time stress prediction using Scikit-learn's LogisticRegression estimator wrapped in a Pipeline with a StandardScaler preprocessing step.
- **Designed an intuitive user interface** with interactive sliders, session state management, patient-doctor chat, wellness bot and real-time visual feedback for improved user experience.
- **Built a complete data preprocessing pipeline** using Pandas and NumPy, and created interactive visualizations with Matplotlib and Seaborn for exploratory data analysis and model insights.
- **Optimized application performance** using Streamlit caching and integrated verified Indian mental health helplines and stress-reduction resources for user support.

[2.] Weather App | HTML, CSS, JavaScript, Python, API | [GitHub Repository](#)

- Developed a Flask-based weather dashboard that displays real-time weather conditions and a 5-day forecast for any city using the OpenWeatherMap API.
- Implemented a dynamic user interface with card-based layouts for temperature, feels-like, humidity, wind speed, and forecast data, updating automatically based on user-selected locations.

[3.] Personal Portfolio Website | HTML, CSS, JavaScript | [GitHub Repository](#) | [Portfolio](#)

- Developed a personal portfolio website using HTML, CSS, and JavaScript to showcase professional projects and technical skills.
- Designed a responsive and modern user interface with smooth navigation to deliver a clear and user-friendly presentation of work and contact information.
- Deployed the portfolio website on GitHub Pages, ensuring fast performance, scalability, and reliable hosting.

TRAINING AND CERTIFICATIONS

- Computer Certification Program with hands-on training in Python programming, Microsoft Office tools, web technologies, and information technology fundamentals. (08/2023 – 08/2024)
- Hands-on exposure to telecommunication networks, switching systems, optical fiber communication, broadband infrastructure, and mobile communication technologies. (BSNL) (07/2025 – 08/2025)
- Smart India Hackathon (SIH) 2025, collaborating in a team environment to design and propose a technology-driven solution for a real-world problem statement. (16-09-2025)

SOFT SKILLS

- Good Communication • Quick learner • Problem-solving attitude • Team collaboration
